

High Security Food Pass

A HIGH SECURITY FOOD PASS AND ANTI-SPLASH BOX SYSTEM

- The High Security Food Pass and Anti-Splash Box System was designed by *On the Gate* for use in access-sensitive areas on swinging and sliding doors.
- By replacing a standard cell door food slot with the High Security Food Pass and Anti-Splash Box System, assaults to personnel are virtually eliminated. The system also helps to prevent the spread of contagious diseases by reducing contact between inmates and facility personnel.
- There is no need to replace existing doors; the system was developed for use in retrofit applications and can be mounted to existing doors.

STANDARD FEATURES

- Constructed of tough and corrosion resistant 304 Stainless Steel.
- Incorporates a fully removable Clear Lexan Polycarbonate Anti-Splash Box. The Anti-Splash Box is fully interchangeable and transferable from one door to another with the High Security Food Pass Frame/Door Assembly installed.
- Features the only automatic self-opening food pass door. Key operation unlocks the food pass and allows the door to automatically rise halfway. The door can then be manually raised to the fully open position, or any other desired position. The door can be manually closed to any position or closed halfway with a turn of the key. In any position, a ratcheting system does not allow door to be forced open.
- A positive “Anti-Splash Box to Frame Mating System” creates a snug seal to minimize any gaps between the frame and box.
This prevents the splashing of liquids.
- Airteq 5017 paracentric locks are included with the system. 5017M or 5017B locks are optional.

Warranty

Airteq warrants its products against defects in material or workmanship for one year from the time of delivery. Airteq's sole obligation under the warranty is to repair, or at its option, to replace the product. The buyer shall have no other remedy. (All special, incidental and coincidental damages are excluded.) Written notice of breach of warranty must be given to Airteq within the warranty period. The warranty does not cover damages resulting from improper installation or maintenance, accident or misuse. NO OTHER WARRANTIES AS TO MERCHANTABILITY OR OTHERWISE ARE MADE. A continuing product research program is ongoing. Airteq reserves the right to incorporate products and specification changes at any time without notice.
