

AIRGLIDE 8215

U.S. PATENT NO. 5,070,575 AND 5,269,098

This maximum security locking device is designed with security foremost in mind. The door operator is contained in a securely baffled, continuous or individual, compact housing. Surface mounted locking column at rear of opening is of seamless, one piece construction to resist tampering. Provides for positive two point locking in both the open and closed position with automatic mechanical deadlock.

Doors may be individually unlocked, manually at the door, in the event of an emergency or power failure. The door travels on a solid 1" alloy steel track, using silent rollers with lifetime lubricated bearings to insure maximum reliability and quiet operation.

2511 Midpark Rd., Montgomery, AL 36109

Phone: (800) 466-3007 Fax: (334) 286-6421

The **8215** is a pneumatically powered locking device designed for use in applications requiring remote unlocking and manual movement of sliding doors. The locking system provides smooth, quiet operation with minimal maintenance. Low power requirement (24 VDC) provides substantial cost savings in electrical power distribution and controls.

APPLICATION: Sliding door locking device for entrances, safety vestibules, corridors and cells.

DRIVE SYSTEM: Manual with automatic 3" door movement at unlock.

SECURITY LEVEL: ASTM F 1643 Grade 1

RELEASE SYSTEM: Remote controlled. Local manual and/or electric in hollow metal receiver column.

STANDARD FEATURES

- The door pneumatically unlocks and moves approximately 3 inches from either the locked closed or locked open position.
- AirGlide door suspension system utilizes silent, lifetime lubricated patented rollers which travel on a 1" diameter alloy steel track.
- Non-metallic door guide wear pads provide for smooth, silent operation.
- Side motion is limited to 1/16 inch or less, significantly reducing rattle induced noise.
- Hip high key release with the choice of mortise, mogul or paracentric key cylinder, providing local manual and/or electric control.
- Door may be manually unlocked and slam-locked with automatic mechanical deadlocking.
- Internal door position and lock status switches provide for deadlocked closed and deadlocked open indication.
- Fail-Secure (unlocks when energized)

TECHNICAL SPECIFICATIONS

Specifications

- **Housing Cover:** 10 gauge steel, 6" deep x 12" high
- **Receiver Column:** 10 gauge steel hollow metal
- **Lock Mechanism:** Two point rear locking column, surface mounted with automatic mechanical deadlock.
- **Hip-high Key Release:** Located in hollow metal receiver column with choice of builders' hardware, mogul or paracentric key cylinder, providing local manual and/or electric control.
- **Indicator Switches:** 5 amps rated, UL recognized.
- **Solenoid:** 24 VDC continuous rated.
- **Electrical Power Requirements:** 2.4 watts max.
- **Air Consumption:** Unlock cycle uses 0.01 SCF.
- **Air Tubing:** D.O.T. approved Nylon 11. Abrasion resistant thermoplastic tubing.
- **Airglide Roller-Track Assembly:** Silent, lifetime lubricated, patented rollers travel on a 1" diameter alloy steel track.

Optional Features

- Keyed two sides. (Specify: K2)
- Door is non-movable when stopped in mid-travel. (Specify: MTS)
- Door skirt to decrease standard 3 1/2" door undercut. (Specify: DS)
- Simple, inexpensive remote manual emergency release system. (Specify: RMERS)

Warranty

Airteq® warrants its products against defects in material or workmanship for one year from the time of delivery. Airteq's sole obligation under the warranty is to repair, or at its option, to replace the product. The buyer shall have no other remedy. (All special, incidental and coincidental damages are excluded.) Written notice of breach of warranty must be given to Airteq® within the warranty period. The warranty does not cover damages resulting from improper installation or maintenance, accident or misuse. NO OTHER WARRANTIES AS TO MERCHANTABILITY OR OTHERWISE ARE MADE. A continuing product research program is ongoing. Airteq® reserves the right to incorporate products and specification changes at any time without notice.
